SPONSORSHIP OPPORTUNITIES

Your Sponsorship Makes a Difference!

The Bifrost is a norse mythological device that connects our world to many others and has often taken the form of a rainbow. Bifrost Conference was designed to connect leaders in technology from all around the world right here in Toronto for a full day of learning and networking. We also pride ourselves on the diversity of speakers and attendees we bring together through our inclusive language, branding, and policies.

Your funds make all this possible and shows the world your brand values leadership, diversity, and growth!
